FOREST HILL
HR
RESORT

Forest Hill
Golf & Country Club

THE MAGNUM OPUS

WHERE YOU EXPERIENCE ALL ABOUT GOOD LIFE!

“ Everything you can imagine is real."

FHR Club House with a panoramic view of large open green lawn.

> Forest Hill Resort

AN ECO-SANCTUARY.

If you step your foot at Forest Hill Resort, you must know that it has much more to offer than what meets the eye. Just 15 minutes away from Chandigarh, the project is a warm welcoming hug that embraces you with its serene and tranquil environment. One of the early planned cities in post-independence India, Chandigarh is internationally known for its architecture and urban design. The master plan was prepared by Swiss-French architect Le Corbusier and in 2016 Chandigarh was declared UNESCO World Heritage Site. Thriving very close to this master-planned city is Forest Hill Resort, striking a perfect balance between a healthy and luxuriously rich lifestyle.

The backdrop of Shivalik Hills intensifies the beauty of the overall unadulterated surroundings of Forest Hill Resort. The meandering hilly tracks and a thick cover of trees attract tourists in large numbers. It is an ideal spot for adventurers, photographers and nature lovers. The bewitching Forest Hill Resort is so close to the city and is what the

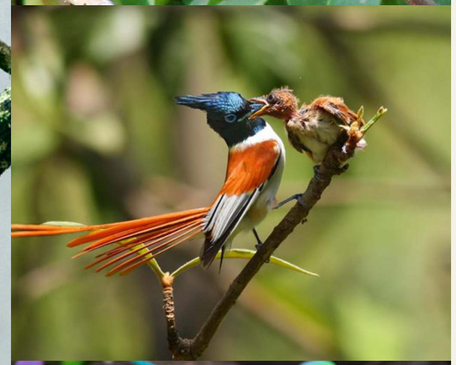

> Shivalik Foothills

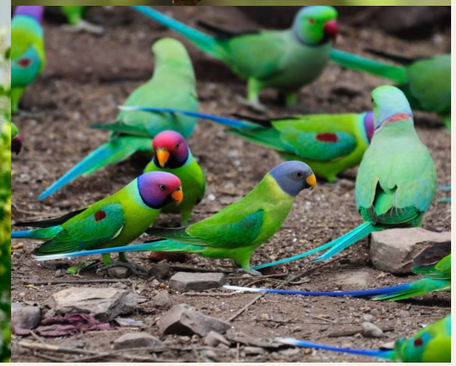

GRATIFY YOUR SOUL WITH NATURE'S SYMPHONY.

Imagine a world without trees, birds, freshwater, clouds or flowers? We can live in a world without materialistic things but we cannot imagine a life where we are away from the beauty of nature. It is an essential part of us as we need it to survive and thrive. It's time to leave all those glitter and gloss of materialism behind and connect with our true selves in the most natural environment - Shivalik Hills. Rediscover your roots, explore your bare emotions and light up your eyes with little joys that have been given to us by Mother Earth.

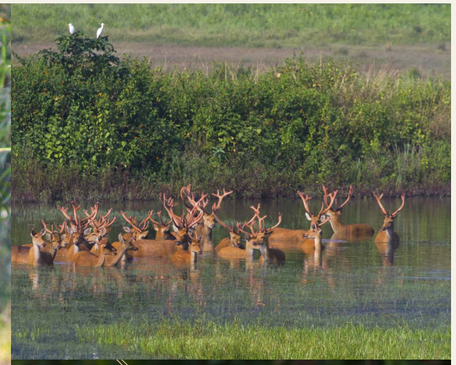

> Bird Watching

LET THE BIRDS WAKE YOU UP EVERY MORNING.

Birds are the feathered jewel that rules the sky. They keep systems in balance, pollinating plants, dispersing seeds, scavenging carcasses and recycling nutrients back into the earth. But their role is not just limited to that. They feed our spirits, makes our heart flutter with happiness and inspire us to fly high to reach the limits of the sky. Their sheer ubiquity makes them almost unavoidable and at Forest Hill Resort you will witness a variety of birds species such as Asian Paradise Flycatcher, Common Kestrel, Blue-Throated Barbet, Brown- Headed Barbet, White-Capped Redstart, Plumbeous Water Redstart, Plum-Head Parakeet, Green-Tailed Sunbird, Common Quail, Indian Pitta, Jungle Fowl, Bats, Indian Peacock, Owl, White-Browed Shrike Babbler, Fire Breasted

> Animal Sighting

FIND THE INVALUABLE TREASURE OF LIVING NATURE.

How often do you get a chance to interact with animals? Not just cats and dogs but a myriad of wildlife? Probably the answer is, not very often. Surely, a lot of people would love spending their days surrounded by animals but such a thing can't happen while you live in a place that is filled with bricks and concrete. Forest Hill Resort is one such place where you can observe a variety of animals inhabiting in their natural environment. Wild Boar, Fox, Barasingha, Blue Bull, Sambar, Jackal, Wild Goat or Porcupine, you will witness them all in your hilly dwelling.

> Fascinating Flora

EVERY PLANT IS A SOUL BLOSSOMING IN NATURE.

Want to experience what it is like spending your day and night in a naturally rich environment? Then, your search will end the moment you will step in Forest Hill Resort, where your surroundings are filled with naturally growing plants like neem, phulai, kikar, shisham, chhal, kachnar, jhigan, amla, kari patta, semal, raeru, kachna, kendu, dhak, khair, tut & musket plants. The greenery and freshness all around will surely keep you from leaving your luxuriously natural lifestyle.

Masol - The archaeological beauty.

> Masol

FIRST HUMAN MAY HAVE WALKED ON THIS LAND.

A village located in Shivalik Hills and 10 KM away from Chandigarh, Masol has been declared as a protected area with millions of years old fossils. The area holds high archaeological value and its close proximity to the resort will offer a chance to witness the wonders of human evolution. Nearly 1,500 fossils and 250 stone tools have been found on the site, most were of extinct animals that walked the earth millions of years ago. The strategic location of Forest Hill Resort near this archaeological beauty is easily accessible via highways and is close to major healthcare, recreational and educational facilities.

> Preservation of Environment & its Resources

PRESERVING THE MOTHER EARTH.

Enjoying every moment in peace and happiness while being in harmony with nature and the environment has been the aim of Forest Hill Resort. This is not only evident in our words but also in our approach towards architectural development. The living area is built only on 10% of the total area, keeping the biodiversity and natural features of the site in mind. Over 8000 acres of Sukhna wildlife sanctuary is very well respected and is close by to cherish and enjoy. The building materials used are local and sustainable, which include certified wood, recycled and rapidly renewable materials as well as natural fibres, fabrics and flooring. Further contribution towards the environment is made by using only sustainable and biodegradable products in the resort and saying 'no to plastic' use.

Our work doesn't just end here. The project will be comprised of a waste plant that is based on reduction, reuse and recycling. A sewerage treatment plant has already been set up in the property where the daily waste will be recycled to promote environment-friendly ways and the treated water will be used for irrigation. Use of Solar Energy Techniques, Energy-efficient lighting and appliances are also made. All this will ensure a low carbon footprint, creating an ideal living area for living beings.

Preservation of flora & fauna, as well as wildlife, is also kept in mind, adding a whole new charm to the resort. Water harvesting dams will ensure that the residents or visitors don't have to face any issues of water shortage and water reservoir will provide the animals with access to drinking water. So, whether it is humans or animals, Forest Hill Resort will be a thriving place for both.

THE FUTURE OF OUR PLANET IS IN OUR OWN HANDS

As a nature resort, Forest Hill Resort actively thinks about using environment-friendly and socially responsible ways to offer uncompromisingly gorgeous hideaways to our visitors and residents. From water harvesting to green practices, here are a few things that we do to contribute towards the environment.

Water Harvesting

Water is a basic necessity and being actively used in large quantities. But only a few people or communities are thinking about harvesting water from natural resources. At Forest Hill Resort, we are adopting the latest methods such as water harvesting system, water recycling and recharging soil water. This way we are able to save on water expenses and limit the waste which is essential for a better living.

Green Groundskeeping Practices

All the trees at Forest Hill Resort are intact and being removed only if they are diseased, dead or at the risk of falling. Till now, we have also planted more than one lakh trees and to increase the area of biodiversity, we have also introduced a large number of new plants species along with indigenous species that possess medicinal value (Bahera, Aonla, Neem, Dake etc.), aesthetic value and also provide food to Birds like Ficus species. One will also find herbal plants like Chirayta, Brahmi, Stevia, Moringa etc.

Green Laundry Practices

The linen used in the rooms and around the resort is washed daily only when requested. This helps in saving water and along with that other environmentally friendly laundry products are also used.

Drip & Sprinkler Irrigation

Forest Hill Resort has plenty of plants, tress and greenery all around. To provide them with the right environment to nurture and thrive in, plenty of water will be needed. As FHR aims at preserving water resources, we use drip & sprinkler irrigation methods. This method ensures that the entire green area is sufficiently covered and there's minimum water loss through evaporation or surface runoff. We make sure that every drop of water is used in a thoughtful way, thus saving 30% to 40% water than what would have normally been used.

Waste Recycling & Segregation

At Forest Hill Resort, we are committed towards keeping the entire resort area immaculately clean. We do this with the help of the bins that are installed all around the resort and have a standardized color-code with clear signage that encourages the visitors as well residents to assist us in our mission. As the bins clearly mention which each one is for, the people around make sure that only that particular item goes into the bin so that it can later be processed, reused or sent to a private treatment facility. Food waste produced in our kitchen and landscaping waste coming from plant trimmings, dry leaves, branches, etc. are recycled through composting and mulching. We try to give back to the mother earth and things that are non-degradable are put to better uses.

Green Count

Forest Hill Resort is a private location in every sense and nestled away in a serene environment, away from the bustle of the city. It is unlike any tourist destination, with its own identity that highlights in a spectacular manner. The entire resort, living spaces, club and recreational areas are surrounded by pristine beauty of unadulterated greens, trees, fields, hills and valleys. But we are not just limited to the green count that is already there in the location. We have planted more trees and plants such as Chirayta, Brahmi, Stevia, Moringa, etc. to enhance the beauty and offer the visitors a clean green environment that they would love to be a part of.

> Proactive Efforts to Reduce Waste

USE LESS, CHOOSE WELL, MAKE IT LAST.

Caring about nature is an important step to take but at the same time, one should also cut down the waste produced every day. At Forest Hill Resort, we actively work to reduce waste output. We are making use of the technology so that paper is used in the least amount possible. The guests' bathrooms are equipped with dispensers that bring down the use of individual amenity bottles. The guests also receive reusable water bottles so that there's reduction in wastage. As a community, we support the government's initiative to stop the use of single-use plastic and take the right measures to save the environment.

> Benefit the Local Community

MAKING A CONTRIBUTION TOWARDS THE LOCAL COMMUNITY.

The aim of Forest Hill Resort was always to contribute towards society and try to make it a better place. The project being large scale needs manpower so that the resort can run smoothly. For this, FHR is employing a large percentage of the staff from the local communities. The project is already running a vocational program for the local girls in association with the Dashmesh Education Society from over 20 years, building that employment pipeline and nurturing the professional development of the local children.

The material and produce used at Forest Hill Resort are also locally sourced. We also promote local artifacts, handicrafts and artists through our Arts and Culture Village.

HEALTH...
A STATE OF MIND.
WELLNESS...
A STATE OF BEING.

Your hectic life leaving you with no 'me-time'? This is a common scenario but a person must spend some quality time with him/herself to live a healthy life. At Forest Hill Resort, you will get plenty of ways to do that. In association with Vivekananda health global - one of the renowned names in offering authentic and traditional healing practices, Forest Hill Resort offers residents the goodness of yoga, meditation, ayurveda, acupuncture, acupressure, naturopathy, etc.

The most authentic and traditional healing systems will be used by Vivekananda Health Global to give you a new way out of the troubles of everyday life. The wellness techniques you will indulge in are original and scientifically validated. They are also well known for their effectiveness in restoring & improving health and maintaining it. After complete analyses that are based on classic Ayurveda pulse diagnosis (NadiPariksha), personality typing (Prakrithi Analysis) and other traditional methods, Vivekananda Health Global will offer the best natural remedies that will do only good to your health and bring a positive attitude in you.

> Organic Farming

TASTE THE MAGIC OF MOTHER EARTH.

Fresher air, peaceful nights, safe neighbourhood and a friendly community are what your heart desires for? Now, imagine a place where along with all these things you are enjoying the fruits and vegetables that are organically grown? At Forest Hill Resort, you will get more than what you have bargained for. The project has its pilot project on organic farming, which has been expanded further to 25 acres of land. From exotic vegetables to culinary herbs and spices to medicinal plants, everything is grown organically and pesticide-free.

But the luxury doesn't just end here. The project also houses indigenous breed of Cows from Gir, Gujarat producing A2 milk and will also provide you with free range eggs and chicken. Goat farming is also done organically to promote chemical-free produce. From dairy to fishery farming all will be done organically to promote fresh and healthy products that will further provide better growth and wellbeing to the residents. Wheat, rice, pulses, and spices will also be produced organically.

The aim behind this is to offer the residents a lifestyle that they have long forgotten. When you will taste this luxury, you will explore the true meaning of living life to the fullest and in the most natural as well as

> Culinary Program Grounded in
Community Supported Agriculture

ENJOY A FARM FRESH MENU.

The club and restaurant of Forest Hill Resort are dedicated to provide the residents and visitors with meals that are made from farm-fresh fruits and veggies. Our thoughtfully curated menus and in-house organic farming are a proof of that. According to the seasonal output, we craft a menu so that only the fresh produce goes into the food. Even the spices that we use are grown in the resort itself, so you can be assured of the quality.

> Nursery

WHERE THERE ARE NO MISTAKES, ONLY EXPERIMENTS.

Love nature to the extent that living amidst is not enough? Want to take some greenery and freshness of plants and flowers home? This desire is also very well taken care of in Forest Hill Resort. The project boasts of a nursery that has a collection of native and exotic plants, fruits, vegetables and flowers that one can take home with them. Every season, you will find the plants that can thrive in particular weather conditions, making its maintenance an uber easy task.

> Golf Course, Country Club & Recreation

WHERE RELAXATION & ADRENALINE GO HAND IN HAND.

From afternoon game of golf on the golf course to evenings spent relaxing with friends, Forest Hill Resort has several areas where you can lighten your mood amidst nature.

Start your mornings embracing the glory of the rising sun and indulge in the pleasure of strolling barefoot on the morning grass. After a hearty game of golf, settle down in the Bar and leisurely take pleasure in a glass of beer while relishing the picturesque view. Perfect legendary architecture equipped with all modern amenities, The Club House has a well-stocked bar, elegant dining rooms serving piping hot dishes and lithographs on the wall display the rich history of golf. The place also caters to those who seek adrenaline rush with their number of adventure sports and activities. It is a place where you can indulge in wholesome, quality time with your friends and family.

> Banquet Facilities &
Open Lawns for Parties

MAKE EVERY EVENT A MEMORABLE ONE.
